WHY CHOOSE US?

We know how difficult it is to find the right logistics partner and we pride ourselves on being exactly that, **YOUR PARTNER**. Guiding you, assisting you, solving all your problems and getting your cargo from one destination to another.

At The Shipping Monster, transportation and logistics is only a fraction of what we do. The bulk of our work is **PLANNING, PREPARATION, LISTENING AND UNDERSTANDING**. Months before we move a single box. We are anticipating obstacles, initiating discussions, pushing for changes. We find that devil in the detail and beat him into submission. At our core, we are a project management company.

We believe that your project is living and breathing. It is ever-changing with multiple factors pulling and pushing against each other. **WE MAKE SENSE OF THE CHAOS**. We give you a clear path forward. We give you measurable steps and advised actions.

We stand apart from our competitors and we differentiate by specialising in the niche industries we operate in. It is what we are known for, what we are good at and where we deliver added value to you.
